Stressors

Because accumulation of stress affects our health and ability to heal please list your top three stresses (you have ever had) in each category:

1. Physical stress (falls, accidents, work postures, etc.)
   a. ___
   b. ___
   c. ___
2. Bio-chemical stress (smoke, unhealthy foods, missed meals, don't drink enough water, drugs/alcohol, etc.)
   a. ___
   b. ___
   c. ___
3. Psychological or mental/emotional stress (work, relationships, finances, self-esteem, etc.)
   a. ___
   b. ___
   c. ___

On a scale of 1-10 (1 being very little and 10 being a lot) please grade your present levels of stress (including physical, bio-chemical and psychological or mental/emotional):

At work:	At home:	At play:

Please circle what phrase best applies to each category:

Eating habits: excellent good fair poor	Exercise habits: excellent good fair poor
Sleep: excellent good fair poor	

How do you grade your physical health?

Excellent ☐	Good ☐	Fair ☐	Poor ☐	Getting better ☐	Getting worse ☐

How do you grade your emotional/mental health?

Excellent ☐	Good ☐	Fair ☐	Poor ☐	Getting better ☐	Getting worse ☐

Is there anything else which may help to better understand you which has not been discussed?

understand the **Chiropractic Informed Consent to Treat**, and hereby grant permission for my child to receive a chiropractic assessment and chiropractic care.

Rosen Coaching, Inc. Copyright © 2003 (808) 878-8384

Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an "arterial dissection" that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.
I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

Neck Pain Disability Index Questionnaire
Neck pain and headaches

Name: Date:

Please check the statement that most accurately matches how your neck discomfort is affecting you:

Section 1: Pain Intensity
__I have no pain at the moment.
__The pain is very mild at the moment.
__The pain is moderate at the moment.
__The pain is fairly severe at the moment.
__The pain is very severe at the moment.
__The pain is the worst imaginable at the moment.

Section 2: Personal Care
__ I can look after myself normally without causing extra pain.
__I can look after myself normally but it causes extra pain.
__It is painful to look after myself and I am slow and careful.
__I need some help but manage most of my personal care.
__I need help every day in most aspects of self care.
__I do not get dressed, I was with difficulty and had to stay in bed.

Section 3: Lifting
__I can lift heavy weights without extra pain.
__I can lift heavy weights but it gives me extra pain.
__Pain prevents me from lifting heavy weights off the floor but I can manage if they are convenient places e.g. on a table
__Pain prevents me from lifting heavy weights but I can manage light to medium weights if they are conveniently positioned.
__I can only lift very light weights
__I cannot lift or carry anything.

Section 4: Reading
__I can read as much as I want with no pain in my neck.
__I can read as much as I want to with slight pain in my neck.
__I can read as much as I want with moderate pain.
__I can't read as much as I want because of moderate pain in my neck.
__I can hardly read at all because severe pain in my neck.
__I cannot read at all.

Section 5: Headaches
__I have no headaches at all
__I have slight headaches which come infrequently.
__I have slight headaches which come frequently.
__I have moderate headaches which come infrequently
__I have moderate headaches which come frequently
__I have headaches almost all the time.

Section 6 Concentration:
__I can concentrate fully when I want to with no difficulty
__I can concentrate fully when I want to with slight difficulty
__ I have a fair degree of difficulty in concentration when I want.
__ I have a lot of difficulty in concentrating when I want to.
__I have a great deal of difficulty in concentrating when I want to
__ I cannot concentrate at all.

Section 7: Work
__ I can do as much work as I want to.
__ I can only do my usual work, but no more.
__ I can do most of my usual work, but no more.
__ I cannot do my usual work.
__ I can hardly do any work at all.
__ I can't do any work at all.

Section 8: Driving
__ I drive my car without any neck pain.
__ I can drive my car as long as I want with slight pain in my neck.
__I can drive my car as long as I want with moderate pain in my neck.
__I can't drive my car as long as I want because of moderate pain in my neck.
__I can hardly drive my car at all because of severe pain in my neck.
__I can't drive my car at all.

Section 9: Sleeping
__I have no trouble sleeping
__My sleep is slightly disturbed (less than 1 hr. sleepless).
__My sleep is moderately disturbed (1-2 hrs. sleepless).
__My sleep is moderately disturbed (2-3 hrs. sleepless).
__My sleep is greatly disturbed (3-4 hrs. sleepless).
__My sleep is completely disturbed (5-7 hrs. sleepless).

Section 10: Recreation
__I am able to engage in all my recreation activities with no neck pain at all.
__I am able to engage in all my recreation activities with some pain in my neck.
__I am able to engage in most, but not all of my usual recreation activities because of pain in my neck.
__I am able to engage in a few of my usual recreation activities because of pain in my neck.
__I can hardly do any recreation activities because of pain in my neck.
__I can't do any recreation activities at all.

Disability Questionnaire (Oswestry) - for low back

Name: Date:

Please check the statement that most accurately matches how your low back discomfort is affecting you:

Section 1: Pain Intensity
__The pain comes and goes and is very mild
__The pain is mild and does not vary much
__The pain comes and goes and is moderate.
__The pain is moderate and does not vary much.
__The pain comes and goes and is very severe.
__The pain is severe and does not vary much.

Section 2: Personal Care
__ I would not have to change my way of washing or dressing in order to avoid pain.
__I do not normally change my way of washing or dressing even though it causes some pain.
__Washing and dressing increases the pain, but I manage not to change my way of doing it.
__Washing and dressing increases the pain, and I find it necessary to change my ways of doing it.
__Because of the pain, I am unable to do some washing and dressing without help.
__Because of the pain, I am unable to do any washing and dressing without help.

Section 3: Lifting
__I can lift heavy weights without extra pain
__I can lift heavy weights but it gives me extra pain.
__Pain prevents me from lifting heavy weights off the floor, but I can manage if they are in convenient places.
__Pain prevents me from lifting heavy weights off the floor.
__Pain prevents me from lifting heavy weights, but I can manage medium weights conveniently positioned.
__I can only lift very light weights at the most.

Section 4: Walking
__I have no pain walking.
__I have some pain on walking, but it does not increase with distance.
__I cannot walk more than one mile without increasing pain.
__I cannot walk more than ½ mile without increasing pain.
__I cannot walk more than ¼ mile without increasing pain.
__I cannot walk at all without increasing pain.

Section 5: Sitting
__I can sit in any chair as long as I like.
__I can only sit in my favorite chair as long as I like.
__Pain prevents me sitting more than 1 hour.
__Pain prevents me sitting more than ½ hour.
__Pain prevents me sitting more than 10 minutes.
__I avoid sitting because it increases my pain right away.

Section 6 Standing:
__I can stand as long as I want without extra pain.
__I have some pain on standing, but it does not increase with time.
__ I cannot stand for longer than one hour without increasing pain.
__ I cannot stand for longer than ½ hour without increasing pain.
__I cannot stand for longer than 10 minutes without increasing pain.
__I avoid standing because it increases the pain right away.

Section 7: Sleeping
__I get no pain in bed.
__ I get pain in bed, but it does not prevent me from sleeping well.
__ Because of pain, my normal night's sleep is reduced by less than ¼.
__ Because of pain, my normal night's sleep is reduced by less than ½.
__ Because of pain, my normal night's sleep is reduced by less than ¾.
__Pain prevents me from sleeping at all.

Section 8: Social Life
__My social life is normal and gives me no extra pain.
__ My social life is normal, but increases the degree of pain.
__Pain has no significant effect on my social life apart from limiting my more energetic interests.
__Pain has restricted my social life and I do not go out as often.
__Pain has restricted my social life to my home.
__I hardly have any social life because of the pain.

Section 9: Traveling
__I get no pain while traveling.
__I get some pain while traveling, but none of my usual forms of travel makes it any worse.
__I get extra pain while traveling, but it does not compel me to seek alternative forms of travel.
__I get extra pain while traveling, which compels me to seek alternative forms of travel.
__Pain restricts all forms of travel.
__Pain prevents all forms of travel except that done by lying down.

Section 10: Changing degree of Pain
__My pain is rapidly getting better.
__My pain fluctuates, but is definitely getting better.
__My pain seems to bet getting better, but improvement is slow at present
__My pain is neither getting better nor worse.
__My pain is gradually worsening.
__My pain is rapidly worsening.
